How to Find a Provider

Need a family physician, internist, OB/GYN or pediatrician? Click Primary Care to search for doctors in your area.
Find a Cost Estimate

Our new transparency offerings strive to:

- Generate sustainable cost savings
- Drive overall health improvement
- Increase member engagement and ownership of benefits
- Leverage multiple member communication channels
- Demonstrate value and performance
How to Find Cost Estimates

Click “Find a cost” to see how much a specific procedure costs and estimate what you will pay out of pocket based on your benefit plan design.
How to Find Cost Estimates

Select from six common service types:

- General Health: Routine medical care such as doctor office visits, annual check-ups, and other general health procedures.
- Diagnostics/Imaging: Tests to help diagnose medical conditions, including lab tests (such as blood work), MRIs, and X-rays.
- Procedures/Surgeries: In-patient and outpatient surgeries and other procedures to help treat many medical conditions.
- Behavioral Health: Services for individuals, groups, and/or families suffering from mental, behavioral, or addictive disorders.
- Vaccines/Immunizations: Shots and injections to protect yourself against common diseases like the flu or chicken pox.
- Other: Additional common medical procedures or treatments including: pregnancy, fertility, dermatology, heart health, diabetes, and cancer.

Or, search for a procedure:

Search for a specific procedure by typing it into the search bar or view all procedures.
