

NEW ELECTRONIC HEALTH RECORD SYSTEM COMING TO MONTANA HEALTH CENTERS

Clinics will be closed and no patient services will be available April 20, 21, and 23

The new system will provide improved patient management and an enhanced member experience!

- ▶ Montana Health Centers are training staff on how to use the new certified Electronic Health Record system
- ▶ The new system will be implemented state wide once staff completes a three day training

NEW LOCATION!

The Anaconda clinic will be opening its new location (610 E. Park Plaza, Suite 602) on July 6, 2021. It will be dedicated solely to Montana Health Center services and Premise providers. The newly remodeled building will offer increased member service options.

If you need service during this time you can schedule at the Butte clinic or a Tele-Visit with any Montana Health Center providers.

SAME GREAT CARE...NEW NAME!

CareHere Health Clinics will be changing to Premise Health this spring. Even though the name is changing, the value and care will stay the same. Available to ALL MUST members, helping reduce out-of-pocket costs.

Premise Health provides same day appointments, online scheduling, \$0 cost (\$55 copay for HDHP plans), as well as certain labs and diagnostic testing, including x-rays.

To schedule your appointment:

- ▶ Call 855.200.6822
- ▶ Visit MyPremiseHealth.com
- ▶ Download the My Premise Health app
