Time To Get Your Flu Shot!

Flu Shot Clinics at the Montana Health Centers Begin
Tomorrow, October 3, 2023

Three ways to make your appointment at a Montana Health Center!

1. mypremisehealth.com - [instructions available here](#)
2. MyPremiseHealth app
3. Call (855) 200-6822

You may also ask to add a flu shot when checking in for another scheduled Montana Health Center appointment.

Do NOT schedule an appointment for a flu shot with a medical provider unless you have other medical needs that you need to see a provider for.

If you need more information, or are not in a Montana Health Center area, you may also get your flu shot from a One Health Clinic, pharmacy, or your provider. See the [Health Care & Benefits Division website](#) for further details.

Montana Health Center Flu Shot Clinic Schedule

Flu shots are available for all State Plan members, including Medicare retirees, the age of 4 and older.

The high dose flu shot is not available at the Montana Health Centers.

Questions?

The Montana Health Center flu shot clinics are offered by the State of Montana Benefit Plan, Live Life Well, in partnership with the Montana Health Centers.

For questions about scheduling an appointment for a flu shot:

Montana Health Center (operated by Premise Health)
mypremisehealth.com
 (855) 200-6822

For questions about flu shot benefits available through the State Plan:

Health Care & Benefits Division
 (800) 287-8266
benefitsquestions@mt.gov
benefits.mt.gov/Medical/Flu-Shots

Updated mRNA vaccines against COVID-19 have been approved by the Food and Drug Administration (FDA). Vaccines are available at some pharmacies, doctor offices, and soon the Montana Health Centers. More information about vaccine availability at the Montana Health Centers will be shared soon. For assistance finding a COVID-19 vaccine near you, visit vaccines.gov.
